Country Summary: India

Executive summary of the India country profile (2026-09-24). Superscript numbers refer to the numbered sources in India_Profile_DRAFT_SOURCES.docx.

At a Glance

1.46 bn Population, 2025 estimate[3]	**$11,748** GDP per capita (PPP), about, 2025[7]	**3.37%** Health spending, share of GDP, 2022-23[23]	**43.4%** Out-of-pocket share of spending, 2022-23[76]
0.95 Registered doctors per 1,000, about, 2025[80]	**132.5 m** PM-JAY admissions funded, 8 years to 2026[56]	**64.6%** Private share of urban admissions, 2025[61]	**644,000** Medical-purpose arrivals, 2024[104]

Country background

India, with about 1.46 billion people in 2025, is a federal parliamentary democratic republic with its capital in New Delhi.[1,2,3] President Droupadi Murmu is head of state, and Prime Minister Narendra Modi, in office since 2014, began a third term in June 2024.[8,9] Health care delivery is a state responsibility under the Constitution, and a state government is often the counterparty for a foreign partner.[2,24] The IMF counts India among the fastest-growing major economies: official provisional estimates put real GDP growth at 7.7 percent in FY2025-26, and the World Bank puts 2025 GDP at about US$17.2 trillion in purchasing-power terms.[5,25,26] The population is aging: fertility fell to 1.9 in 2024, below replacement, and UNFPA projects the share aged 60 and over to rise from 10.5 percent in 2022 to 20.8 percent by 2050.[12,15,16] US trade policy is a risk: most Indian goods have faced a 10 percent US duty since 24 July 2026.[29,30]

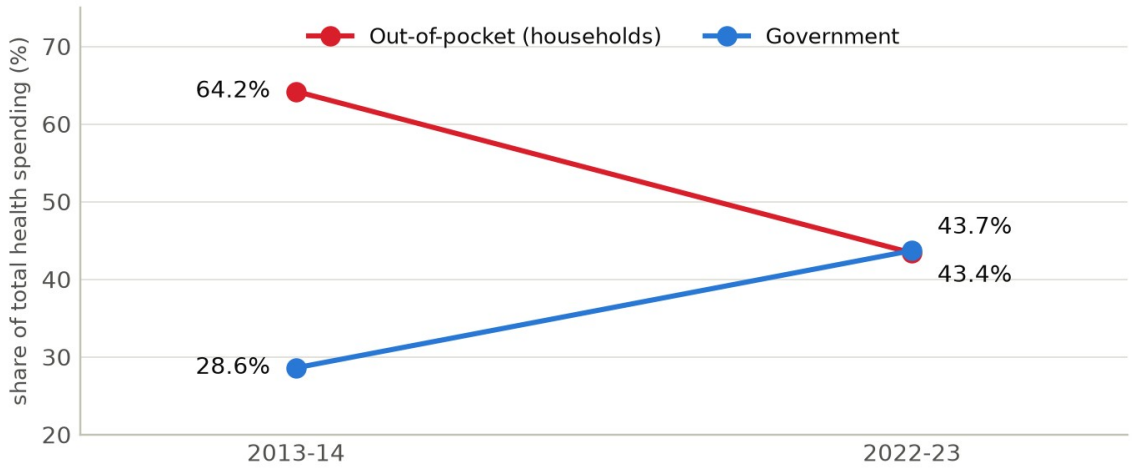

Key takeaways for CSI

- Two-tier market: PM-JAY rates anchor mass care; a smaller paying and international segment sustains premium care.[56,59]
- Mount Sinai's exclusive Ramaiah collaboration, reportedly 10 years, is CSI's closest peer model.[155,156]
- Private chains are the likeliest commercial partners; state governments are often the counterparty.[24,72]
- Workforce training, from nursing to leadership, is one of the clearest openings.[80,83]

Health System

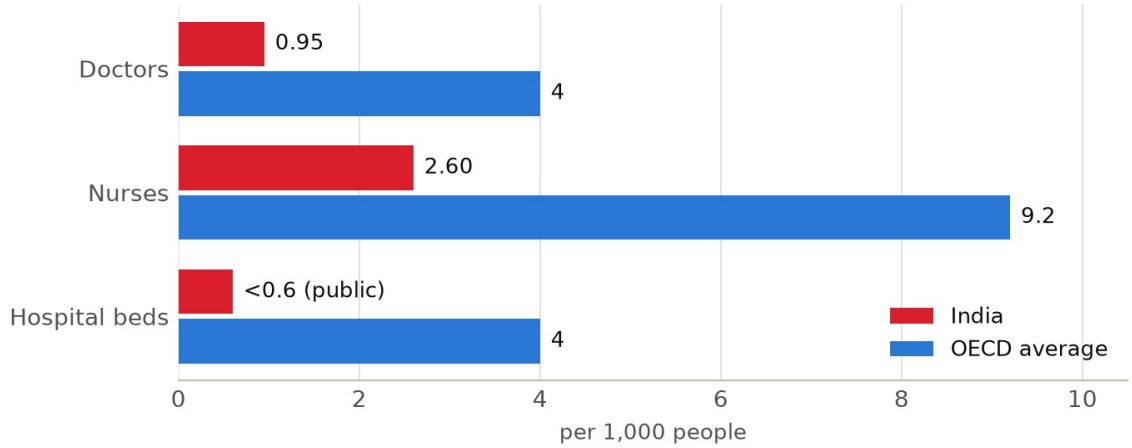

- States run delivery, from 1,81,873 Ayushman Arogya Mandirs to AIIMS and Tata Memorial Centre.[2,53]
- Government health spending was 1.48% of GDP in 2022-23, short of the 2.5% target.[23,78]
- Under one registered doctor and 0.6 public beds per 1,000; rural centers lacked 79.9% of specialists in 2023.[55,80,89]

Who pays for health care: share of total health spending

National Health Accounts. In between, the out-of-pocket share dipped to 39.4% in COVID-affected 2021-22 before rising again once emergency government spending ended. Sources: [76,75]

Health workforce and beds per 1,000 people: India vs OECD average

India: registered allopathic doctors (fewer are active) and registered nursing personnel, 2025; beds counts public facilities only, March 2023. OECD: averages from Health at a Glance 2025. Sources: [80,3,83,84,55,86,87,88]

Market and Competition

- Manipal (13,037 licensed beds), Apollo (10,970, including overseas) and Aster DM Quality Care (over 10,600) lead.[62,64,67]
- Capital: Manipal's Rs 9,275 crore IPO, Blackstone in Aster, KKR's pending Medicover deal, IHH controlling Fortis.[63,66,71,74]
- Cleveland Clinic anchors Navi Mumbai MediCity under an MoU; Mayo advises Adani's two Health Cities.[100,103]

Where foreign health systems partner in India

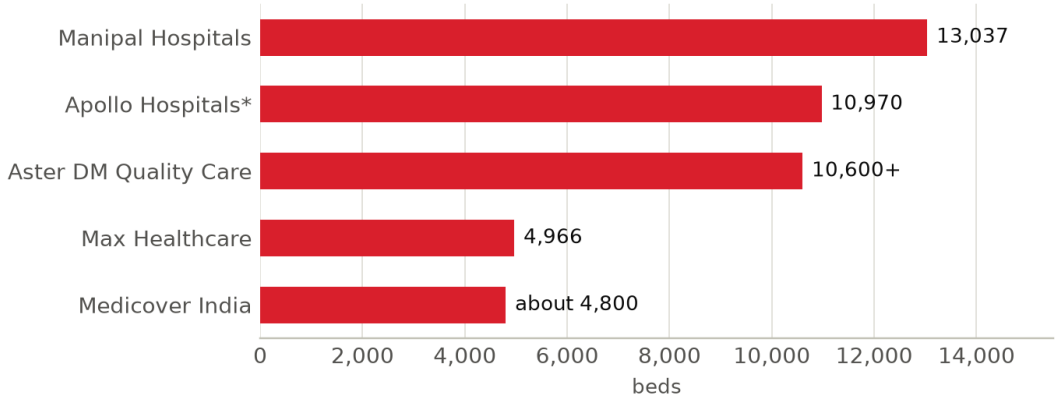

45 partnerships active or active within five years: 36 active, 7 unclear, 2 ended. Full list with sources in the profile and the partnerships tracker.

Foreign health-system partnerships by city of the partner in India: active, and unclear where no active partnership exists. Source: CSI partnerships tracker, verified 2026-09-30. Boundaries: Natural Earth; not an official depiction.

Opportunities and Risks for CSI

Potential partners: largest private hospital groups by beds, 2026

Definitions differ: Manipal licensed beds and Max operational beds (31 March 2026); *Apollo includes managed and overseas hospitals and day-surgery units (March 2026); Aster DM Quality Care after its July 2026 merger; Medicover India is being acquired by KKR.

Sources: [62,63,64,65,66,67,68,69,70,74]

Opportunities

- Nursing, fellowship and allied-health training, backing budget plans for 1 lakh more allied health professionals.[36,83]
- Affiliations, second-opinion services and clinical program development with corporate hospital chains.[62,72]
- Cardiology, oncology, metabolic and transplant care in the aging south, west and National Capital Region.[15,37,43]

Risks and watch items

- Medical arrivals fell from 6.97 lakh in 2019 to 6.44 lakh in 2024; Bangladesh, the top source, faced visa limits.[104,106]
- A 2026 US law allows tariffs up to 100% on the largest Russian energy buyers; generics face Section 232 review.[31,33]
- Thin public funding and staffing; PM-JAY tariffs set the price floor for private partners.[23,56,89]

Recent developments

2026-06-10 Maharashtra's MoU names Cleveland Clinic anchor of planned US$1.2 billion Navi Mumbai MediCity.[24,103]

2026-08-06 KKR agreed to buy Medicover India's 24 hospitals; closing expected fourth quarter 2026.[74,152]

2026-09-23 PM-JAY turned eight: 13.25 crore funded admissions at over 38,000 empaneled hospitals.[56,57]
